

SANDHILL RIVER WATERSHED DISTRICT

August 31, 1956

Board of Directors of the Sand Hill Drainage and Conservancy District met at the Mjelde residence in Beltrami, all members present. Charles Sheridan called the meeting to order. Minutes of previous board meeting read and approved.

After some discussion, Sheridan was asked to contact the Polk County Board in regard to their bill against the district. Also to contact Omar Rood and get a letter to the Army Engineers in regard to change on Kittleson Creek diversions. There followed a lot of discussion on the feasibility of Kittleson Creek diversion. There was some doubt about it working out satisfactorily. Due to the small amount of fill, Nolte, Sheridan and Braaten then decided to drive to the scene of operation and the meeting was adjourned.

N. J. Mjelde, Secretary
