

SANDHILL RIVER WATERSHED DISTRICT

July 23, 1957

Tuesday morning, the Board of Directors met at Beltrami, all members present. At 9 A.M. they left Beltrami in Nolte's car for the lower end of project on an inspection trip to check on work that had been done by the contractor. Came back to Beltrami in time for lunch at noon. After lunch, the board continued their inspection to the upper end, where Martin Braaten made the motion that a resolution be drawn giving all town boards permission as far as district was concerned to build roads on or any other way make use of the dikes on spoil banks.

The board adjourned to meet again the next morning to go over the project with the Army Engineer.

N. J. Mjelde, Secretary
