

SANDHILL RIVER WATERSHED DISTRICT

June 23, 1958

Board met at the Fire Hall at Beltrami. L. E. Rulien, Lloyd Ofstedal and all board members were present. Col. Brown, George Lyous, H. Markus, Mr. Darling, Art Johnson, and Mr. Lundgren from the Corp of Army Engineering met with the board. A lot of discussion followed on the slides at mile 27 and 28. Also Col. Brown summarized by saying that their feeling was that the project – though not as nice looking as everybody would have liked it – was adequate as it was and the engineers felt that the project should be taken over by the board at this time. Also said they would send us the standard form of acceptance and things that would be expected of the board.

A few days later, the Army Corp sent a form of acceptance and maintenance rules. Same was passed around for board members to read.

N. J. Mjelde, Secretary
